Creativity
Quality-Oriented
Eagerness to Learn
Communication

LANGUAGES

Macedonian (native)
English (C1)
Serbian (conversational)

SUMMARY

I'm a curious and detail-oriented front-end developer who loves turning ideas into seamless, user-friendly digital experiences. I enjoy writing clean, efficient code and bringing designs to life in a way that feels smooth and intuitive. Collaboration is a big part of how I work, I really value being part of a team and connecting with clients to build something meaningful together. I'm always exploring new technologies and keeping up with trends like accessibility and performance because I genuinely care about making the web better for everyone. I'm also a bit of a perfectionist, so I pay close attention to the little things, whether it's aligning a button just right or making sure everything works beautifully across devices. I thrive in creative, fast-moving environments where I can keep learning, solve problems, and grow with every project.

WORK EXPERIENCE

Wordpress Website Designer 2023 - ONGOING
Freelance

- Work closely with clients to design and develop custom, responsive WordPress websites tailored to their brand and goals.
- Manage domain setup, hosting environments, and SSL to ensure smooth website deployment and performance.
- Implement on-page SEO and optimize site speed for better visibility and fast loading across browsers.
- Provide ongoing maintenance, updates, and support to keep websites secure, functional, and up-to-date.
- Use tools like Elementor and various plugins to enhance website functionality and user experience.

Sales Assistant 2022- ONGOING
Jewelry Store - Teta Donka DOOEL

- Gained strong communication skills through regular interaction with a variety of people.

PROJECTS

Front-End Development Project - Enable Good

Sep 2025 - Oct 2025

Brainster Front-End Academy

- Designed and developed a full-stack platform using React, TypeScript, Firebase, and Sass with a focus on responsive UI/UX.
- Implemented authentication with Firebase, multi-step registration, and Google Calendar integration.
- Built dynamic dashboards and data-driven pages powered by Firestore.
- Worked independently, ensuring scalable code and a seamless user experience across public and private layouts.

Front-End Development Project - Youth Can

Nov 2024 - Dec 2024

Brainster Front-End Academy

- Designed and developed a fully responsive website using HTML, CSS, Bootstrap, SCSS and JavaScript to create a seamless user experience across all devices.
- Implemented form validation feature with JavaScript.
- Used SCSS for better code organization, enabling maintainable and scalable stylesheets.
- Worked independently, ensuring all aspects of the project were executed with well-organized and efficient code.

Front-End Development Project - Safe Blink

Apr 2025 - May 2025

Brainster Front-End Academy

- Designed and developed a fully responsive web application using Sass, vanilla JavaScript, and Flask API to provide users with an interactive and secure web experience across all devices.
- Implemented session-based storage for secure user sessions and incorporated single-page routing with hash paths for a smooth navigation experience.
- Styled the application using Sass for better code organization, enabling scalable and maintainable stylesheets.
- Worked independently, ensuring all aspects of the project were executed with efficient, well-structured code and focused on providing a seamless user experience.

Real Estate Wordpress Site

Feb 2025 - Feb 2025

plagianou.gr

Built a real estate WordPress website with property listings, including basic filters to help users narrow down options by key features like location and price. Added contact forms to enable easy inquiries from potential buyers. Ensured the site is responsive and easy to navigate on both desktop and mobile devices.

Furniture Ecommerce Webshop

Mar 2025 - May 2025

mebelartin.mk

Developed a fully functional WooCommerce website for a furniture store, featuring detailed product listings and advanced filters to help customers easily find items by category, price, and features. Built a complete online shopping experience with secure payment integration, shopping cart, and order management. Designed the site to be user-friendly and responsive across all devices, enabling clients to browse and purchase furniture seamlessly.

Wordpress Landing Page

Feb 2025 - Feb 2025

nothingbeatzasmile.com

Created a clean, responsive landing page designed to showcase key information and engage visitors. Focused on clear layout, fast loading times, and easy navigation to drive user interaction and conversions.

Wordpress Website

Jun 2024 - Jun 2024

dreambodymedspa.com

Developed a modern, multi-page website for a med spa featuring service pages, about us, testimonials, and contact information. Focused on clean design, easy navigation, and mobile responsiveness to create a professional and welcoming online presence that effectively showcases the spa's offerings and builds client trust.

Wordpress Website

Nov 2023 - Dec 2023

manifestingyourdivinebody.com

Built a sleek, elegant multi-page website for a med spa, combining striking visuals with easy navigation. Designed to reflect luxury and professionalism while ensuring a smooth experience on all devices.
